

## **WELCOME TO BARROWDEN**

Your welcome pack is provided by Barrowden Parish Council as an expression of our hope that you will find your move to the village to be a very positive experience where you will enjoy the life of an active vibrant community.

We have endeavoured to include much information that will be useful but, as to be expected, there will be other things that you would appreciate knowing. The person who delivered this to you will be happy to advise or suggest you who need to contact.

Village organisations are pleased to welcome new members. Some newcomers have found that being a shop volunteer has been an excellent way of getting to know people and making new friends. The shop gardening team always welcomes extra help. The cricket club young players training is proving popular. We hope that whichever organisation you go to will make you very welcome. Many organisations are combined with our neighbouring village of Wakerley less than a mile across the river Welland.

You are arriving in Barrowden at a time when much thought is being given to ways of improving community facilities. It is an exciting new venture for all ages.

## **WELCOME**

Gordon Brown, Chairman Barrowden Parish Council

## **Planning information**

Barrowden is a conservation village which has a range of listed buildings and open spaces. The village greens, village pond, mill pond and trees are valued features of the village. If you want to make any external changes to your home or garden it is wise to consult Rutland County Council pre-planning advice service before submitting any formal planning application. Information can be found at:
