

Email 06.09.21 from M Ashman of Hill-Fort

Hi Richard,

The ash felling cost will be significantly higher than £500, I'll issue the fixed price quotation in the next few days. Can you confirm the job specification - Fell to ground level or high stump (another green man perhaps?) - disposal of arisings - carried away or left on site. If left on site, cut up into manageable pieces or left as dismantled for others to process/carry away. Would you like to keep the woodchip. Obviously, the less we have to do the lower the cost. Lowest cost is, leave stump high, all wood left at or about base of tree unprocessed, woodchip left somewhere nearby, tipped (maybe the allotment holders could make use of it).

Kind regards

Mark Ashman *PD Arb (RFS), M. Arbor. A*
