

Email of 22 July 2021 from Pau Mariner

Subject: Seaton Road planning application

Dear Richard,

I have just seen the village email regarding the Seaton Road application.

It reminded me of my query to Sue (in this chain) regarding the building of the new barns which we didn't get to have a say on.

Whilst it doesn't impact us personally I was concerned at the time that barns would be built to set a precedent for future house building on green field sites and this seems to be the case now.

My comment to the PC ahead of the meeting next week is that we need to be very careful in setting this precedent.

Regards
Paul
