

Email of 1 April 2021 from Tony and Beth Pridmore

Subject: Re amended application reference 2021/0054/FUL

Hi Richard, we are objecting to this application because it is still our personal opinion that the site for the shelter should be situated where a building already exists. All though it is in need of repair.

We believe that the parish council also agree that this would be the preferred position.

The new plan is showing the shelter to be slightly further from our boundary.

If the applicant wants it close to his property should it not be on his own boundary?

Regards Tony and Beth Pridmore.
