

Email of 23 July 2021 from Clive Holland re 8 Arches

Dear Parish Council

I support the planning application for Eight Arches Farm for the following reasons:

1. The buildings is very acceptable ribbon development to the village, this is preferable to further infill.
2. This is a rural business that should be encouraged. It is very much in keeping with the history of the village, especially the wool trade. Rural .A business plan has been produced which is credible and supports the application.
3. The impact on the local environment has been carefully considered by the applicant and in addition native trees will be planted which will be resistant to climate change.

I hope you will be able to support the application.

Thanks

Clive Holland
