

## **Email of 24 July from John and Kate Haddon to Mike Ferrow**

Planning applications 0693 and 0694/FUL

We write to comment on the above applications.

At present the site is anomalous on Chapel Lane, where all other properties have gated entrances. Provision of gates on the front boundary of the property will be an improvement.

When the house was extensively restored in the early 1980s the north elevation of the house was treated with very few windows. The proposed new windows, if sympathetic in design as drawn, would improve the appearance of what is now the front of the house.

The extension is relatively recent (probably not in the listing) and will benefit from sliding doors.

We support the application.

John and Kate Haddon
