

## **Email of 5 November 2019 from Stuart Burns at Burghley**

Dear Richard,

I hope this email finds you well.

I have attached to this email the revised block plan for the site and also the proposed designs for Plots 4 and Plots 5.

We have embraced the comments from the Parrish Council and have completed the following changes which meets the approval of the Local Planning Authority and the Conservation Officers.

- Plot 4 have been redesigned and reduced in height.
- Plot 5 have been redesigned and reduced in height.
- Plots 4 & 5 have been swapped on the development so the larger building is no longer adjacent to the entrance of the site.
- The amount of parking has been amended and reduced in numbers.
- We have installed a curved wall to flank either side of the entrance as requested by the Local Planning Authority which will mask the view of the parked vehicles by the entrance way and increase the vision for those entering and exiting the development.

We hope that these changes will meet the approval of the Parish Council and we would request that any feedback is forwarded to me by Wednesday 13<sup>th</sup> November 2019.

We look forward to hearing from you in due course.

Many thanks

Stuart
