

Dear Gordon

Thank you for your email to Valerie and Brian of 27th November as Ward Councillor, with your four suggestions for the hub scheme.

We apologise for not yet getting back to you in detail but we have been waiting for formal communication from RCC from the 17th November planning committee meeting, which we hoped we might have received by the time of our meeting this morning. We are hoping to respond properly once we have more clarity from RCC on the proposed conditions, which have not yet been provided. In addition, it may be helpful to consider any feedback from the site meeting.

We have formally requested the planning committee information from RCC planning officers but have not yet seen any response and we would be grateful if you could help to expedite this.

Best regards

Barrowden Village Hub development group
